

GREECE THE ALLIES FOOTBALL, THINKS KING CONSTANTINE

Editor's Note:—With eyes of the European conflict focused on Greece, the following statement given to the Associated Press by the King of Greece throws some light on the imperial sentiment in that country. At the same time the prediction of the result of the war may explain Greece's reluctance to being dragged into it. France's reply to the statement is also to be found in the following article and it will be only fair to both sides for all to read it.

The King of Greece late Thursday summoned the Associated Press correspondent at Athens for the purpose of expressing through the newspapers of the United States, which he said are the only forum of public opinion open to him, his indignation against the recent action of the Allies in their operations at Saloniki, in blowing up the bridge at Demir Hissar, in occupying Corfu and other islands, which Greece claims.

He said the situation is as if a foreign power had occupied that part of the United States which had been won from Mexico after the Mexican war and that the plea of military necessity advanced by the Allies, was like that given by Germany for invading Belgium and Luxembourg. It is the merest cant, the king declared, for Great Britain and France to speak of the violation of the neutrality of Belgium and they have done and what they are doing themselves.

He fails to see the necessity of blowing up the bridge or for the occupation of Corfu and he also challenged them on the contention that submarines of the Allies are being supplied from a Greek base.

He said or Petrograd, he believed that the Allies in pique over the failure of the Balkans were trying to unload on Greece the result of their own stupidity, 80 per cent of the Greeks a the beginning were in favor of the Allies but now not even twenty per cent would re-der them aid.

King Constantine did not feel that he could afford to demobilize while the fate of Saloniki is undecided and while he did not think it probable that Germany could be victorious in the sense that she could take London, Paris from Paris only on January 18 at 3:45 p. m. On January 18, an earlier hour the highest French authority—whose personality is not otherwise indicated, gave an interview to the Associated Press in reply to the statements made by the Greek King. This authority denies any parallel between the German invasion of Belgium and Luxembourg and the temporary use of certain points in Greece which does not constitute an occupation properly speaking and which use was made for the most part with the tacit consent of Greece.

The Allies, he said, only went to Saloniki to aid Greece's ally, Serbia, and to take up treaty obligations which Greece did not fulfill. During the recent months, he added, the Greek government tried to violate its neutrality by using the Greek coasts and islands as a base for provisioning their submarines.

The charges about the bridge at Demir Hissar were without foundation, the French authority said and the question of the sympathies of the Greek people was proved by their action at the recent elections and their attitude towards M. Venizelos, the friend of the entente.

The authority points out that, while the King declares he cannot demobilize, he forgets to add that the Allies continue at his request to advance money to Greece for its mobilization.

As far as the King's opinion regarding the war, he says, it is pleasant that a sovereign who is so impressed by Germany's strength should publicly admit that she cannot be victorious, which shows how correct impartial people are in proclaiming that she will be crushed.

**ALLEGES MURDERS IN MEXICO "LOGICAL FRUIT" OF THE WILSON POLICY**

Washington, Jan. 20.—The Santa Ysabel murders were declared to be the "logical fruit" of the administration's Mexican policy in a speech in the house today by Representative Mondell, of Wyoming, (Republican), reviewing at length outrages committed against Americans in Mexico since the overthrow of Madero.

"By following not a policy of 'Watchful Waiting' but of 'mischievous meddling', said Mr. Mondell, coupled with base betrayal and callous indifference to the welfare and safety of American citizens has the administration lost the respect and confidence and earned the contempt of first one and then another, and finally all the people of Mexico.

"By the same process has the administration subjected our citizens in Mexico to the sort of treatment likely to be meted out to citizens of a country whose authorities have brought upon them the ill will and distrust and hatred of a whole people."

The administration, the speaker declared had ignored past American practice in international intercourse in his plan of "Personal vengeance" against Huerta and then, by recognizing Carranza, "had given the clearest and most convincing proof of the error and insincerity of its declarations that no government ever would be recognized which did not have a constitutional basis for its authority."

Mrs. Mohr asked Brown how things were. Healis testified, "and Brown said O. K." She asked where we were going to pull it off. She thought it would be better on "the Newport side" because she knew all the police of Newport. Mrs. Mohr said she would leave that to us. She said "All you've got to do, George, is to stop the car." She told Brown he would get \$2,000, that I was to get \$2,000 and Spellman \$1,000.

"I told Mrs. Mohr I did not want to do it. She told me not to be afraid; that I could say it was a hold-up and to rush to the nearest house and tell them that the doctor had been held up and shot. The murder was planned for the next night. Brown said we could throw our guns into the lake.

**VILLA'S DEATH WELCOMED BY THE MEXICAN GOVERNMENT**

Washington, D. C., Jan. 20.—Intention of Senate Republicans to continue to press for legislative action on the situation in Mexico, despite the determination of the Democrats to prevent such a step, at present and reports from the border for a new revolution in Mexico, were developments in the situation today. Another development was the announcement of the issuance by General Carranza of a decree formally proclaiming Francisco Villa, Pablo Lopez and Rafael Castro outlaws because of massacres of American citizens at Santa Isabel, and authorizing execution of the outlaws without formality by any citizens of Mexico.

# Fiftieth Anniversary Of The Y. W. C. A. To Be Observed

(Continued)  
The 952 associations in our land will unite this month of February in celebrating the 50th anniversary of the founding of the Young Women's Christian Association of America. We wish in this nationwide jubilee to honor in all parts of our country the charter members and other early workers whose foresight, courage and faith made possible the work of our organization. We wish the public to be acquainted with the aims of the association; a time for girls and women to look beyond themselves, out to what other women are doing here and in foreign lands; a time for emphasizing the fundamental purpose of the association, the deepening of the spiritual life.

To be a real member of the association is a tremendous challenge for all-round living and service. The jubilee with its backward look over fifty years of association life and work and its forward look to greater things opens a way for giving new impetus to the true conception of membership throughout the association. Through the activities planned in every local association members will be brought in closer touch with each other, and into the all-round life which we aim to foster. Perhaps no greater desire could be expressed than the one voiced by an active member. "My dominant desire for the jubilee is that every one of our three hundred and forty-two thousand members may come to think of the Young Women's Christian Association, not as a thing to which she may attach herself this year, and detach herself the next, but as a living, pulsing organism to which she allies herself for life and through which she can give of herself and lovingly, her time, strength and money."

The local association of Portsmouth has a jubilee working on definite events to take place in February which will carry out the aim and purpose of jubilee celebration. Mrs. Alan Jordan is chairman of this committee, serving with her are Miss Edna Streich, Mrs. Mavis Bridges, Miss Ethel Doerr, Mrs. A. Willey, Mrs. Jervie Pursell, Mrs. A. Berndt, Mrs. Irving Drew, and Mrs. W. W. Gates. There will be special services each Sunday afternoon, a membership recognition service to which all present members are to be invited.

All members are urged to watch for further notices and to await the cards being sent to them which include the full calendar for the month. All board and committee members are asked to save February first and February third (afternoon) and morning of the fourth.

Of especial interest to all girls will be the pageant, "The Wayside Piper," to the given February 22, in charge of Miss Katherine Dawson. Part of the cast will meet Friday night for assignment of the parts.

On February 14th there will be a valentine party at the Second Presbyterian church club rooms for all girls and their young men friends.

The publicity committee has some original ideas in the way of posters and bulletins. Watch for further notices.

## Try, Try Again Adage Works Out Fine For Him

Charles F. Kehrer, collector for the Distel Furniture Co., of this city, didn't let a whole lot of disappointments make him lose faith in the belief that some day he would find relief from stomach disorders that he had suffered for years. And now he is glad he didn't.

"I have used all kinds of medicines trying to get benefited," Mr. Kehrer explained, "until I was finally told about Tanlac."

"I guess if I had been only told by one person I wouldn't have paid much attention, but I heard about it so many times that I felt sure it must be good and I found that it was."

"When I first began to take Tanlac I was suffering from stomach disorders, nervousness, sleeplessness. This medicine has relieved me of these disorders. I sleep sound at night and have a good appetite. Those disagreeable belching spells, which I was subject to before I took Tanlac, have entirely left me. Life is worth living now. I heartily recommend Tanlac for those that suffer as I did."

Old Mother Nature never meant for a human being to have that run down, all-gone feeling which is so prevalent among the people of the present generation. The pace set during modern times has been too fast for most of us to stand up under. For 99 times out of 100 wherein a man is inefficient, or seemingly without ambition, it is simply a case of physical ailment of some kind or other.

Tanlac, the new tonic, invigorant and vitalizer, has proven to be nature's greatest assistant in bringing back to normal health, sickly, run down men and women.

In instances of catarrh of the mucous membranes, stomach, liver, kidney or intestinal troubles, Tanlac is most effective.

Tanlac, the ideal constructive tonic, may be obtained at the Fisher & Streich Pharmacy; at Lucasville from Dr. R. H. Cox; at

New Boston from E. H. Coburn; Ruggles, Ky., from H. A. Hiff's drug store, and at Fullerton, Ky., at S. M. Robertson's drug store. adv

A Message To Thin Weak Scrawny Folks

An Easy Way to Gain 10 to 30 Pounds of Solid, Healthy Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimilate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run-down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. A splendid way of working to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to try Sargol, the famous flesh building agent that has been so widely sold in America in recent years. Take a little Sargol tablet with every meal and see if your cheeks don't quickly fill out and rolls of firm, healthy flesh form over your body, covering each bony angle and projecting point.

Fisher and Streich and other good druggists have Sargol or can get it from their wholesalers. New officers will be elected and refreshments served at the close of the business session. All members are kindly asked to be present.

The Second Presbyterian Women's Missionary Society will hold its annual banquet at the church on January 25th.

Easy Way To Keep Your Hair In Curl

If you have trouble keeping your hair in curl, you'll do well to try this liquid shimmer. Apply a little at night with a clean tooth brush, drying the hair with the full length of the hair from root to tip. The hair will dry in the perfect waves and curl you desire. The effect will appear almost natural. Instead of that dull, dried-out look which the heated iron gives, the hair will be bright, lustrous and beautiful.

Should shimmer be of course perfectly harmless to hair and scalp, and is neither greasy nor gummy. If you will get a few ounces from your druggist you will find it quite inexpensive to use.

"The Girl and the Game"

Columbia Tonight

"The Girl and the Game" that interesting story of railroad life, is the big headline attraction at the Columbia tonight. Remember that each week these marvelous pictures are complete in themselves and if you missed the first of the series last Thursday, you will thoroughly enjoy Chapter 2 today.

The crowds that saw the first episode of this picture were loud in their praise last Thursday and the pictures tonight are more exciting, one scene showing Miss Holmes making a leap from one locomotive to another.

In addition to this special picture, a most beautiful and interesting three reel story of stage life will be shown in "Their Last Performance."

This is a special picture from the Thanhouser studios featuring Grace De Carlton and a score of beautiful stage girls.

At The Strand

A treat is yours if you visit the Strand tonight to see Jane Novak, the beautiful Broadway star, in "The Greater Courage," Big U 2 reel Western drama which tells a powerful story of a ne'er-do-well's regeneration in the Montana mining country, and the love of a refined Eastern girl, who is forced into a marriage with the man who protects her against the insults of a dissolute community.

Third reel "Ethel's Burglar" is a Big U comedy with Murdock MacQuarrie featured.

Fourth reel, "A One Cylinder Courtesan" is a rip-roaring Nestor comedy with Billie Rhodes, Ray Gallagher, Neal Burns and Harry Rattenberry.

Tomorrow brings J. Warren Kerrigan in a Broadway Universal feature in two reels called "The Palace of Dust."

"My Lost One" At The Majestic Tonight

We have for our program tonight

Easy Way To Keep Your Hair In Curl

If you have trouble keeping your hair in curl, you'll do well to try this liquid shimmer. Apply a little at night with a clean tooth brush, drying the hair with the full length of the hair from root to tip. The hair will dry in the perfect waves and curl you desire. The effect will appear almost natural. Instead of that dull, dried-out look which the heated iron gives, the hair will be bright, lustrous and beautiful.

Should shimmer be of course perfectly harmless to hair and scalp, and is neither greasy nor gummy. If you will get a few ounces from your druggist you will find it quite inexpensive to use.

## A Thrill in Every Paragraph

That is what that most capable of all writers of railroad stories, Frank H. Spearman, has put into his latest and best work.

## The Girl and the Game

A Story of Mountain Railroad Life.

It is a story of a young girl's struggle for success in the face of adversity—the revelation of Wall Street's control of America's railroad systems—the explanation of so-called "high society" with its pampered daughters, its financial trickery, its defeats and its victories. Never before has such an interesting subject been presented in a newspaper serial. You can read this remarkable story in these columns, and also see every thrilling incident pictured in movie theaters.

## THE MEXICAN SITUATION

(From Dayton News)

The murder of a number of Americans by outlaws in Mexico recently is a grave matter, of course; but inasmuch as the crime was not committed by an "army," or under the direction of any one claiming to hold all or a part of the territory, it is entirely different from other disturbances which have taken place down there. It must be abated; we can not allow citizens of this country to be murdered in Mexico. But our grievance in this instance is not the same as in other instances, as where Villa or Zapata, or any other revolutionist, committed the deed.

General Carranza is endeavoring to catch the culprits. He may be able to do so. If he does, and they are punished for the crime, we can have no further interest in the matter; that is, we can not make it an "international affair." But if the outlaws are not captured; if they are permitted to run at large; if they commit further crimes, we shall probably co-operate with Carranza in restoring order by running down the murderers. But we shall probably do so in co-operation with the Carranza government, and not endeavor to ourselves seize the government of Mexico.

The crime committed against the Americans was similar to one committed in this country several years ago in New Orleans against citizens of Italy. It is also on a par with the crimes committed upon several occasions against citizens of China, out in the western mountains. In each of these instances we disavow any intention to mistreat or discriminate against citizens of other countries; we assure the nations of which the dead are citizens that we will prosecute those who are accused of the crime, and we make every effort to catch and to convict the murderers. But we always fail in that.

The hysterical cry that this government ought to go to Mexico and take charge of affairs is pure demagoguery, or worse. Certainly it is not founded on the wisdom of the day. Generally it is hurled at President Wilson for political purpose—this denunciation of his Mexican policy, by people who would just as bitterly denounce him if he had intervened in Mexican affairs. We must remember always, in reading such denunciations, that a presidential election is pending, and that politics comes first with a lot of people and with a lot of newspapers.

With few exceptions, the people of this country do not want President Wilson to plunge us into war with Mexico or anybody else. Well-informed people know that it would have to be done at a frightful cost, that it is one thing to sit in a comfortable office and talk about intervention and quite another thing to dig down into the pockets and to pay for such intervention.

President Wilson has so far handled the Mexican situation satisfactorily to a majority of our people. Affairs down there are being straightened out pretty well, all things considered. We do not minimize the evilness of this latest murder, nor do we believe that this country should wink at any such outlawry. But the president is mindful of his duty to the best advantage of the people of this country. The cheap, clap-trap demand that we send an army to Mexico and eat up all of the outlaws, blood, bones and body, is foolish, as well as cheap.

Just what judicious advertising will accomplish, and incidentally just what advertising in The Times means, was demonstrated this week by I. F. Lemon & Company, of the East End. This firm advertised in Monday evening's Times that it would be open until 7:30 o'clock Monday evening and among the bargains advertised were canvas gloves, ordinarily sold at 10 cents a pair at the rate of two pairs for five cents, not more than five pairs to a customer, linen collars generally sold at 15 cents each for 3 cents each or 35 cents a dozen. The Times went to press at the usual hour, 4 o'clock and Lemon & Company report that before closing time they had sold 300 pair of canvas gloves and 500 linen collars. That is a remarkable showing. It illustrates that people read advertisements and that The Times reaches the people who buy.

Portsmouth friends of Harry McKenzie, former Waverly editor, will be pleased to learn of his appointment to a lucrative office by Secretary of State C. G. Hildebrand. Mr. McKenzie is a man of ability and he will undoubtedly make a good record in office.

Somebody has suggested that one reason for those recent rampages of the Ohio is that the Lord grew tired of George White's delay on that twelfth job and sent the waters to help him finish off the surface.

## ABOUT TIME FOR A SHIFT

A well known and progressive farmer of the county, commenting upon the recent editorial in The Times in regard to the home extension work being carried on by Supt. W. L. Richey, of the county schools, sends in this communication, that will be found of interest:

January 16, 1916.

## Editor Times:—

Commenting on your article on rural school work a few days ago, Mr. E. J. Schmeichel, of Winter, Wisconsin, gave notice that the agricultural department of the school, will test milk and cream free of charge for the farmers of that vicinity and hopes that eventually they may be able to form a testing club or cow testing association. Rural schools are finding it desirable, in increasing numbers, to take up this class of work and it is only regretted that more of them have not yet seen the value of so doing.

The American voter will unlose his purse strings when he is convinced that real service will be rendered. This conviction may not be established in one year, sometimes not in two years, but if real service is given it will be eventually accomplished.

Let the farmer's cow nose her way into the school room and the farmer will follow after her. Connect up the farm and the rural school in a visible and direct way, and both will profit by the acquaintance.

## A SUBSCRIBER.

P. S. Have every rural school in the county buy a Babcock milk tester for testing milk and cream. The testers cost about \$4.00 and the results will be found of great value.

Ed Jones emerged from his long silence Monday and declared himself not a candidate for governor but avowed that this honor should go to our good young governor and any one who said or thought otherwise was a nunny and a numskull. We don't suppose however that upon his return home, following this momentous interview, Ed's admiring Jackson friends got out the village band and Undertaker Al Wood's snow white horses as they did at a certain other famous home-coming.

At the very latest traction line cars will be running from Portsmouth to Ironton by July, and as preliminaries always consume considerable time, we suggest that our city council should at once begin the steps necessary to annex Ironton to the Peerless. Then we can have a big Fourth of July celebration to formally complete annexation ceremonies.

At tobacco sales at Manchester last week one basket belonging to R. H. Ellison, of Manchester, was sold for 60 cents a pound, the highest price ever paid for Adams county tobacco. Mr. Ellison has a fine farm which he manages on the latest scientific principle and it is yielding him a handsome profit. What he has done, others in this section can do. There ought to be more 60-cent tobacco in Adams and Scioto counties.

## THE MARION NICHOLS CASE

Demon Rum is responsible for a good bit of evil in the world, there's no question about that, but once in awhile he is blamed for something for which he is not entirely responsible. For instance, we note that Marion Nichols made a plea to a Chillicothe judge that if it had not been for booze he would not have been guilty of forgery, and thereby he got into the good graces of the tender-hearted judge and received a light sentence. Now Marion Nichols may be a booze fighter. But he is more than that. He is a worthless, no-account, mean spirited thief. He has been one so long as the oldest inhabitant in this section can remember. When at large, there has been hardly a week for many years, that he has not figured in some unsavory scrape. We believe he would have been a thief if he had never heard of booze because it was in him. He just naturally can't help himself. He is one of those damaged units who are mentally and morally irresponsible and the only place for him is behind the walls of the penitentiary. While he is there society knows that he will be good, but the moment he regains his freedom he will be up to his old tricks. The next time he gets into trouble we hope that the court officials will look up his record before they accept some specious excuse for lightening his sentence.

An excellent way to avoid disseminating grip: Sneeze unto others as you would have them sneeze unto you—into a handkerchief.—Marion Tribune.

Judging from the number of generals Joffre has retired, one would say he was bent on a general cleaning up.—Chicago Herald.

## NEW-YORK-DAY-BY-DAY.

O-O-MEINTYRE.

New York, Jan. 20.—The Rev. Dr. Charles H. Parkhurst is in the limelight again as the result of his connection with a candy concern that is involved in some litigation where it is alleged that the stockholders hold the bag. Dr. Parkhurst seems to be able to hold his own against all comers and somehow he usually comes out with flying colors.

He is a fighter of the old school when his reputation is attacked and he hits straight from the shoulder. Probably no minister in New York has the following that he has. It is said that Mr. Hearst pays him a salary in the five figures for writing two or three signed editorials each week.

Dr. Parkhurst lives at the Ansonia Hotel in the winter and in the summer he goes to his cottage at Lake Placid. When the recent story broke a group of reporters

hot-footed it to his hotel. He met them, talked to them a while and when they left one said: "You might say it was a case of interviewers being interviewed. We got more out of us than we did him. He asked me so many questions I was afraid he was going to uncover my past life."

Nat Goodwin has deserted boxing for wrestling. He is in nightly attendance at the wrestling tournament at the Manhattan theatre. Nat is quite curious to know the identity of the "Masked Marvel." He has been called everything from Harry Thaw to Charlie Ross and thus far has escaped discovery.

It may be a cheap press agent stunt. Perhaps it is, but the fact remains that the "Masked Marvel" is the best wrestler in the United States. Some have said it was Francis X. Bushman, the cinema Apollo, and the other night at 2 a. m. some one called up Bushman in his apartment.

"Take 'em off Bush, we know you," said the voice, and then rang off. It is apparent that Bushman is not adverse to having the public believe it is none other than he—but the real dope seems to point to Mort Henderson.

The New York theatre box office men are notoriously the surliest and crabbiest lot of salesmen who are supposed to meet the public. They are overbearing—sometimes positively insulting—not only to men but women.

A gentleman from the rural districts walked into a Broadway lobby the other afternoon. He knew nothing about the attraction, and in his simple-minded manner said: "Any wild animals in this opera?"

"Do you want to see wild animals?" snapped the ticket man.

"Well—er—yes that is I had heard—"

The treasurer called to the doorman: "Oh Mike run inside and tell them to use the wild animals today. This hick wants to see them."

The manager of the theatre happened to be standing in the office. He rushed up, grabbed the ticket seller by the necktie, pulled his head out the window and gave the face a resounding smack. Then he fired him.

He turned to the countryman, personally escorted him to a private box and sat with him through the entire performance. The manager at one time came to New York a "hick" himself.

Anna Pavlova is dancing again in New York. There seems to be a revival pending of the Russian dances that were so popular a few years back when Mordkin, Genee, Louis H. Chalif, Maud Allen and Isador Duncan were be-

ng greeted by cheers nightly.

The fact that they got out of the limelight temporarily was due to their refusal to sanction the fox-trotting craze. They felt that it would die out in a few years and the real artistic dancing would reign supreme. They seem to have been correct in their surmises.

There may be cold comfort in the fact that at a Broadway vaudeville house this week Alice Fox is representing the Spirit of the North Pole.

## To My Automobile

Oh, touring car, to you I sing,  
You surely are a wondrous thing.  
Before you start I grasp your crank  
And give it such a violent yank  
That it flies back and forth and wrecks  
The region of my solar plex.

Then I get mad and yank some more  
And all I get is just a snore.  
A sort of rambling, puffing sound  
That seems to come out of the ground.

Then you give one discordant snort,  
One single snort and then stop short.  
And then I have to crank again  
Till every muscle is in pain.  
And in an hour, or thereabout,  
I find the batteries are out.  
I get some new ones, put 'em in,  
And with a gleeful contented grin,  
I hear your engine start to throbs  
And off we go, yes, sire, Rob.

I brag about you to my friends,  
But long before our journey ends,  
They're next to both of us, all right.  
The way you act is sure a fright.  
When I'm alone you burn the road,  
But not when I have got a load.

Your tires give out, you pant and wheeze  
And run so slow you make no breeze.  
You amble on by fits and starts,  
It seems as though each of your parts

Has got an ailment of its own.  
My friends converse in whispered tone  
When finally you give out flat  
Ten miles from home as quick as cat.

Your engine gasps and then runs down,  
My friends and I hike back to town.  
Oh, touring car, to you I sing,  
Oh, vicious and ungoverned thing.

—Ray K. Moulton in Akron Beacon-Journal.

## An Epitaph

When a popular sea captain had died four leading men of the hamlet were selected to write an epitaph, and it was decided that each should write a line, say Harper's. The first wrote his easily. The second puzzled a little, then he wrote his. The third followed even more slowly. But the fourth wrote as if inspired and the whole verse read:  
Here lies the captain of the sea,  
Here lies him, here lies he.  
Hallelujah, hallelujah,

## Foolish Questions

Speaking of foolish questions Ohio's humorist, Strickland Gillilan, tells a good one.

"Gill" "Strick" or whatever you may choose to call him, was in a small town in the Central West to fill a lecture engagement. It was just about time to begin, when the "off agin, on agin, gone agin" Fin-nigin" man asked an usher to place a glass of water on a table on the platform.

"What for to drink?" he was asked.  
"No. Certainly not," replied Gillilan. "I make a high dive in the third act. Stick around, and get your money's worth."—Columbus Dispatch.

# THE MARKETS

## NEW YORK STOCKS

New York, Jan. 20.—Numerous substantial losses were recorded in today's broad trading which derived much of its impulse from the short interests. Some substantial recoveries from low levels of yesterday's close were recorded by specialists at the outset of today's operations but the rise was not well maintained. Gains of 1 to 2 1/2 points marked the initial dealings in Mexican Petroleum, American Coal Products and U. S. Industrial Alcohol, but standard stocks were unchanged or slightly lower. United States Steel yielded another small fraction of its recent minimum, a block of 1,200 shares changing hands at 8 1/4. General Motors was heavy losing 7 1/4 and other specialties manifested irregular tendencies, these becoming more marked later.

Steel and the war group continued heavy throughout the dull morning session. There was further pressure against leading rails. Reading, Union Pacific, New York Central and Baltimore and Ohio being susceptible to moderate offerings. The oil shares, Anaconda and American Smelting also declined selling with a revival of rumors concerning conditions in Mexico. Bethlehem Steel fell 1 1/4 to 47, and the preferred 3 to 42. The automobile group, as a whole followed the course of General Motors, Willys-Overland declining five to 220.

Cuban American Sugar added five to its previous high record at 181. Bids were irregular. Wider and more general selling carried prices to their lowest in the final hour, specialties showing over night losses of 3 to 10 points. The closing was weak.

## CHICAGO GRAIN AND PROVISIONS

Chicago, Jan. 20.—Lower freight rates from Argentina today gave an advantage to the bears as a more liberal movement of wheat was expected. Soberly looking developed here, however, when prices declined, and the opening, which ranged from 1 1/2 to 1 1/4 lower, with May at 1.29 to 1.28 1/2 and July at 1.22 1/2 to 1.23, was followed by a slight rally.

Later the market showed an advance as a result of signs of revived export demand and because of higher quotations from Liverpool. New returns in ocean freight rates, however, led to a subsequent reaction. The close was weak, 7/8 to 1/2% net lower with May at 1.29 1/2 and July at 1.23 1/2 to 1.24.

Corn backed support. Consignments from country were much more liberal than recently. After opening 1/4% to 1/2% lower, the market sagged.

Corn closed weak at 1/4% to 1/2% net decline.

Prices afterward hardened to some extent when wheat went up grade. Besides weather conditions were unsettled. The effect on prices though, failed to last. Quotations closed weak at a shade to 1/4% net decline.

Oats, like corn, felt the harsh influence of crop prospects. Lower prices on hogs weakened provisions. Receipts of hogs throughout the west were as numerous as at the corresponding time last week, or a year ago.

The market remained heavy throughout the day scattered hogs continued to realize.

## Save Your Feet-- It Pays in the Long Run

Arch Preserver Shoes--Portsmouth Made-- Will Do the Work

What do you know about ARCH PRESERVER SHOES? If you have not yet worn a pair we are sure you do not fully appreciate their worth and their mission, regardless of how much information you may have concerning them.

"ARCH PRESERVER SHOES are anatomically and mechanically RIGHT for the perfectly good, or normal, foot to wear." That's what the manufacturers say about them, but such big words get us confused so we tell you, after experience, that the ARCH PRESERVER SHOES are built--did you notice--BUILT, on the same principle you would build a bridge. A bridge that does not reach from one side of the stream to the other is not much of a bridge, nor is a bridge sags in the middle would people speak of it as being a reliable bridge. ARCH PRESERVER SHOES have that bridge which reaches from the heel to the ball of the foot, and it is made so that it absolutely refuses to sag in the middle. Then, the tread surface of the inside of the ARCH PRESERVER SHOES correspond identically with the bottom tread of the normal foot. Thus any person can readily see that if your foot arch is normal, the shoe is bound to be exactly the shoe you require; or if your arch is in any way broken down, honest judgment would tell you that a bridge, perfect enough from which to mould the human arch, would be the very support you should have.

There you have the secret of the wonderful success of the ARCH PRESERVER SHOES. Some fellow with a long head on him took the trouble to look into the matter of so many broken down arches and discovered that in our shoe making we had gotten away from nature's path. He saw that to have perfect feet we should not try to make the foot fit the shoe but make the shoe, arch and all, fit the normal foot. You may say, why didn't I think of that? But you are saved the trouble for right here in Portsmouth, The Selby Shoe Co. and the Excelsior Shoe Co. are turning out thousands of pairs of them every week and they are going all over the world, and taking with them the first real foot satisfaction a suffering people has known.

No words of mouth or words in print can tell anyone with a normal or broken arch just how comfortable an ARCH PRESERVER SHOE feels. But we can slip one on your foot and you will fully understand.

That's our mission; to sell these ARCH PRESERVER SHOES to everybody. And every foot should wear them. Don't for one minute think that your foot should need be crippled before an ARCH PRESERVER SHOE should be worn. If your foot is normal, jump into a pair of ARCH PRESERVER SHOES and keep it that way.

ARCH PRESERVER SHOES are not unsightly but are made in the most sensible and dressy fashions. The women's ARCH PRESERVER SHOES are made by The Selby Shoe Co. while youth's, boys' and young men's ARCH PRESERVER SHOES, up to size 8 in men's are made by The Excelsior Shoe Co. We sell both lines.

## FLAMES DESTROY 10 ROOM HOUSE AT SCIOTOVILLE

Fire of unknown origin completely destroyed a 10 room house in the rear of the Chas. Hannah home in the Hannah addition, Sciotoville, about 1:30 Thursday afternoon. Before a bucket brigade could be formed the blaze had gained such headway that there was no chance of saving the building. The house was a two story frame occupied by Walter Burton and family. Mrs. Burton was home at the time and with the help of neighbors saved all her household effects.

# POLICE ARREST TRIO AND LOCATE MISSING GOODS

Acting upon a message from Vaneburg, Ky., Chief Clark and Capt. Walker took Emerson Carlton and two women, Mrs. Boots Kibbe, of this city, and Miss Belle Moore, of New Boston, into custody just as they emerged from the C. & O. ferry Wednesday evening.

The trio were taken to headquarters and a big package they had between them was unwrapped and searched. Snuggly tucked between Carlton and the women were two suits of ladies' underwear, two suits of men's underwear, and two suits of men's underwear, which Ort claimed he had missed just after they left his store. The underwear, he said, was in a package on the counter and he thought, perhaps, they had taken it by mistake. The trio were apparently surprised when the underwear was produced from their package and admitted that it did not belong to them. As Mr. Ort was not disposed to prosecute them and was satisfied only to recover his goods, the parties were released.

The trio had been attending court in Vaneburg, Mrs. Kibbe securing a divorce. Carlton and Miss Moore were witnesses for her. Carlton was formerly an officer in the Front Street Baptist church, but of late has achieved considerable notoriety in police circles.

Trouble is with your kidneys. Uric acid poisoning, in one form or another, has set in. It may lead to dropsy or fatal Bright's disease, if not checked.

# MAKES SERIOUS CHARGES IN SEEKING A DIVORCE

George W. Cooley, of New Boston, entered suit in common pleas court Thursday morning, through his attorney, N. B. Gilli-land, for divorce from his wife, Stella E. Cooley. Adultery and gross neglect of duty are charged in his petition.

Cooley accuses his wife of adultery with a man named Wagner at her home in New Boston at

times while he (Cooley) was at work, and also alleges that she refused to cook his meals, mend his clothing, and was in the habit of remaining at the park and other places of amusement until a late hour at night.

They were married March 9, 1907, and have one child. Cooley also asks for the custody of the child.

## DETECTIVES ARE GOOD RUNNERS

Frank Holt led Detectives Bob Reno and Andy Leslie, of the N. & W., an exciting chase through the North End Thursday noon. Holt had

been discovered stealing coal from a car and was placed under arrest. While the detectives were at a patrol box near Eleventh and Findlay streets he broke away, darting through the Adam Piau alley. Several pistol shots fired into the air to scare him into a stop failed to have the desired effect, but he was finally overtaken in the N. & W. cut between Thirteenth and Fourteenth streets and now languishes in the city bastille.

## REAL ABORN COMPANY COMING

Last week's disappointment in the way of a grand opera treat was probably for the best as the National Opera company, who were booked here at the Sun closed in Columbus on Saturday just a few days before they were billed here. Through some mistake the company had been billed as the Aborn but this was not so and the mistake was only found out when the advance man for the original Aborn Opera company arrived in town and made ar-

rangements with Manager Lee for that company to present "The Bohemian Girl" here Tuesday, January 25 at the New Sun theatre. This as every one knows, is one of the most popular operas that has ever played the American stage, the proof of this is the fact that the people seem never to tire of the splendid musical numbers and the numerous special attractions that are offered. So don't miss this, the one big treat of the season.

# Supposed Dead Man Speaks

Huntington, W. Va., Jan. 20 —The harrowing experience of being spoken to in a pleasant tone of voice by a man supposedly dead and already prepared for burial was undergone by friends and relatives of Alexander Moore, a prominent farmer, living near Ft. Pleasant, Lawrence coun-

ty, Ohio, when Moore, who had suffered a paralytic stroke which apparently resulted in his death, suddenly returned to consciousness after a trance lasting for forty hours.

Moore suffered from a severe stroke of paralysis eight months ago. Last Friday he became seriously ill and ap-

parently died from the effects of the attack.

He was prepared for burial and a cloth laid over his face. A neighbor raised the cloth to take a last look at the countenance of his friend.

"How do you do?" pleasantly remarked the supposedly dead man. The neighbor retreated in alarm.

# Mother Files Counter Charges

A few days ago, J. W. Jordan, a grocer on Harrisonville avenue, New Boston, attached the wages of William Minor, a youth employed at the Breece Manufacturing Company's plant, for an account of \$2.50 which he claimed the boy owed him.

Martha Minor, the boy's mother, retaliated in juvenile court on Thursday morning by filing an affidavit against Jordan, charging him with selling tobacco and cigarette papers to her son, who, she says is under age.

Jordan was ordered to appear

before Judge Beatty, Friday morning, to answer to the charge. According to Judge Beatty, he admitted to the truth of the charge over the telephone Thursday morning. In the meantime, the attachment of the young man's wages has been released.

# Mrs. Schwartz Hurt

Mrs. Fred Schwartz, of 313 Third street, suffered a painful accident in a fall in front of the Roy Lynn home at Third and Washington streets Thursday morning. She was on her way up street and stopped in at the Lynn home to borrow an umbrella. In going down the steps in front of the house, she slipped on the icy stone, and fell, the back of her head striking the edge of an upturned brick,

one of a number used to enclose a small flower garden in front of the house.

Dr. George W. Martin was hurriedly summoned, and he removed the victim to her home in his automobile, where her injury was dressed. Four stitches were required to close a deep gash in the back of her head. She was considerably improved Thursday afternoon, and will soon be able to be out again.

# Woman's Aim Good, Hurd's Head Gashed

McKinley Hurd was badly worsted in an argument with his sister-in-law, Sis Polly Hurd, at the home of "Books" Hurd in the alley between Eleventh and

Twelfth and Findlay and Railroad streets, Thursday noon.

The woman was drunk, according to reports received by the police, and threw a glass at Hurd inflicting an ugly gash between the temple and eye. Friends led him to Dr. E. W. Hubert's office for repairs, it requiring a half dozen stitches to sew up his wound. Officers Goings and Flowers were later detailed to make an investigation of the trouble, the principals of which were colored.

## Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts. There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of Limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poison and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments. People who feel good one day and badly the next but who simply can not get feeling right are urged to obtain a quarter pound of Limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation. Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so Limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 20.

Haldeman, Ky.—Miss Dolly Wise—What nationality does Woodrow Wilson profess? MARTHA. He is an American. His ancestors were English.

Dear Miss Wise—Could you possibly inform me of someone that could loan me a couple of good law books? I would promise to return them just as they were when given to me. If you could possibly do this it would be a great favor. If reference is required I can also give it. X. Y. Z.

You could probably borrow law books from the law library in the Turley building. If not, you could go there every day and read them.

Dear Miss Wise—As my birthday is the 19th of February, which is the proper stone, garnet or emerald? One book says that all birthdays between Jan. 21 and Feb. 21 must have the garnet. Which is correct for June, agate or pearl? April, diamond or sapphire? September, sapphire or chrysolite? Is the Siberian amethyst a valuable stone? Is the genuine ruby more valuable than the diamond? GARNET.

The amethyst is the stone for February, the pearl for June, the diamond for April and the sapphire for September. The Siberian amethyst is a valuable stone. The genuine pigeon blood ruby is as valuable as the ordinary diamond, but as a rule the diamond comes first.

Dear Miss Wise—My wife has went back on me and I have got more trouble than I can bear. What ever shall I do? Please give me your advice. WORRIED HUSBY.

You talk about trouble. Why, pal, you don't know the meaning of the word. Supposing you had a boil on the back of your neck and your jaw swelled all out of place by a rebellious tooth; supposing three of your children were down with the mumps and the fourth smoked cigarettes; supposing you had nine installment payments coming due within a week and you had overdrawn your salary \$10.45; supposing your neighbor on the right kept a goat and the one on the left had a Victrola, and the one across the street was a vocal teacher; supposing you had dyspepsia, gout, jumping neuralgia, sciatic rheumatism, St. Vitus dance and shingles at the same time? Then you might begin to talk about trouble. You make us decidedly weary.

Dear Miss Wise—I am 17 years old and mother declares that lavender is too old for me. I want a lavender silk dress. It is my most becoming color, and I do not consider it too old. What do you advise? BUELAH.

There are so many pretty colors beside lavender, why don't you get something else? I think that lavender would be rather old, too. You ought to be able to wear salmon pink, flesh color, pale green or blue.

Dear Miss Wise—I have an abundant head of hair, which is very dry and coarse, and will not lie flat. What can I do? Will glycerine and cinnamon hurt the hair? HAROLD.

Cinnamon is not good for the hair. Glycerine will not hurt it. Brush your hair back carefully and train it to stay flat.

Dear Miss Dolly—My hands are red and ugly all the time. My fingers swell up and then crack open. My face is broken out. Please tell me what to do. MRS. H. D. Consult a physician.

Dear Miss Wise—Do you think cosmetics ought to be used on the face? DOROTHY.

They are very seldom used on the hands or feet. Cosmetics coarsen the skin and cheapen the appearance.

Dear Miss Wise—There is a certain fellow I meet most every day on the streets. As I do not know any of his friends, who can introduce us? How can I get acquainted? BETTY.

There is no way you can get acquainted without compromising yourself. If you seek the acquaintance of boys, you will not be respected.

Obliging Mary—It ought to say in the ad or story, where to send it. I'm sure I don't know anything about it.

Beautiful Holy Redeemer church was the scene of an attractive wedding this morning when Mrs. Louise Nourrot-Schwartz, one of Portsmouth's best known and highly esteemed young women, and Mr. Robert S. Goldcamp, of Trenton, were married at half-after five o'clock. Rev. J. E. McGuirk officiating with a nuptial low mass, only the relatives, and a few intimate friends attending the wedding. They were attended by Miss Isabel Nourrot, the pretty brunette sister of the bride, and Mr. Will Kinney, of Trenton, brother-in-law of the groom. The charming bride wore a handsome navy blue silk coat suit, very becoming to her handsome brunette style of beauty; her shoes and gloves matched in color, and she carried her prayer book. Miss Nourrot wore a beautiful suit of black velvet trimmed in fur. After the ceremony the bridal group were driven to the home of the bride's sisters, on Third street, where an elegant breakfast was served to the bridal party, including the bride and groom and attendants, Miss Isabel Nourrot and Mr. Kinney, Mrs. Isador Goldcamp, mother of the groom, Mrs. William Kinney and baby, Juliana; sister and niece of the groom, all of Trenton; Miss Florence Nourrot, sister of the bride; Mrs. Anna Nourrot and daughter, Miss Marie Nourrot, sister-in-law and niece of the bride; and Mrs. Robert Lewis, cousin of the bride. The table was attractively adorned in green and white. The happy couple left on the morning 10:45 W. train for Chicago, where they will spend a week, after which they will return to Trenton to make their home. The groom is a well-known business man of that town, being interested in the furniture business.

Full two dozen prominent Masons of this city heard the elegant new pipe organ just installed in the balcony of the lodge room in the Masonic Temple, given its initial test Thursday morning. Under the skillful handling of Miss Lollie Anderson, one of Portsmouth's most talented organists, every feature of the fine organ was brought into play from the softest harmonies to the loudest swells which reverberated throughout the entire building.

Those who were privileged to hear the informal concert Thursday morning are delighted over the purchase of the organ, which, so far, has justified everything said in praise of it before its installation. Its use will add immeasurably to the impressiveness of the lodge meetings in the future.

With the addition of the sounding board, which will be put in place Friday morning, the work of installing the organ will have been completed, and it will be formally accepted by the officers of the lodge.

Formal dedication of the organ will take place some time in February, when one of the best organists in Ohio will be brought here to give a concert.

Mr. and Mrs. Shamus O'Brien McFadden (Anna Louise Fee) have moved back to San Gabriel, Cal., from Corvallis, Oregon, where they have been located since their marriage two years ago. They went back to California on account of the ill health of Mrs. McFadden, moving just before Christmas to the town where her parents, Mr. and Mrs. William R. Fee, are located.

Mr. James Clare, eldest son of Mr. and Mrs. Robert Clare, of Indianapolis, Ind., formerly of Portsmouth, has been transferred from Indianapolis to Boston, Mass., where he holds the splendid position as chain adjuster for the Travelers' Insurance Company. His territory will include the states of Maine, Rhode Island, Connecticut and Massachusetts. "Jim," as he was known to his friends in Portsmouth, is a bright, hustling young man and will no doubt make his mark in the world.

Miss Della Donahoe, of Third street, who recently resigned her position in the office of the Hills Hardware Company, will visit home folks on McMillan street before taking another position.

Mr. and Mrs. William Winters, who have been visiting Mr. Winters' mother, Mrs. Margaret Winters, of Eighth street, for the past eight weeks, left this morning for their home in Hamilton, Ontario.

Paul Williams is ill with tonsillitis at the home of his parents on Gallia avenue.

The Vanhookers, Ky. Sun of this week of local interest said: "Miss Florence Seize and Carlos Bellamy, both of Portsmouth, came down last Thursday and secured a marriage license and were married by Rev. E. B. Hill. They were accompanied by the groom's sister, Miss Virginia Bellamy. Mr. Carlos is a great grandson of Mr. Towney Bellamy of Clarksville."

Miss Lena White, of Eighth street, will arrive home next Wednesday from a visit to Orlando, Florida. While there she was the guest of her sister, Mrs. Florence McMillan. The latter expects soon to dispose of her property in Orlando and return to Portsmouth. It will be recalled that her husband died recently.

Mr. and Mrs. Wills A. Hutchins left this afternoon for a few days visit in Cincinnati.

Alderson, of Topeka, Kansas, formerly of Portsmouth, have announced the engagement of their charming daughter, Elizabeth, to Mr. John Karl Rankin, a prominent attorney of Topeka, Kansas. The wedding will be a quiet affair of Thursday afternoon, February 17th. Miss Alderson has been prominent in musical circles in Topeka, a member of the choir of the First Methodist church, and also instructor of music in Washburn College, of Topeka. Rev. What To Do When Hair Comes Out.

These hairs in your comb and brush are Nature's way of waving a red flag in your face to tell you that your hair and scalp are losing vitality and that it is time you did something for them.

Don't disregard the warning. A little attention now may mean long, thick, luxuriant hair for you for years to come. A little further neglect and thin, dry, dull, lifeless, brittle hair and finally baldness may result. To vitalize the scalp till it tingles with vibrant energy—to make every hair on your head healthy—get a package of Parisian Sage from Fisher and Stretch or any good druggist in town and rub a little right into your scalp with the finger tips.

Parisian Sage acts directly on the entire cell life of the hair from root to tip—helping healthy growth and stimulating a beautiful glossy texture and glorious luxuriance. Notice how quickly your hair stops coming out in clumps and comb; how it is easier to handle and dress and how all signs of itching or dandruff quickly disappear. It is not expensive.

## "Youth Must Be Served" Knocked Into A Cocked Hat At Play House Last Night

Holding aloft their colors with military and patriotic simplicity, showing no more mercy than a band of ravenous wolves, the "Overs" all but annihilated the "Unders" in a five game duck pin series at the Play House alleys, Wednesday night, winning the match by the wide margin of 224 pins and not allowing the "Unders" the consolation of taking a single game. In fact the rout was so complete that it is now a question whether or not it will be possible to garner the bunch together again, even in time for the tempting spread the winners are to enjoy at the expense of the losers.

A large bunch of royal rosters were out to see the fun and while the air was being surcharged with blistering sarcasm and cutting ridicule, the "Overs" led by their captain, W. A. Hutchins, kept right on plugging along and shot carefully and accurately at all stages.

Perhaps it would be well to do a little explaining right here. Some time ago, Dr. Perry Winkler Young conceived the brilliant idea of a contest between players under 50 years of age and those who had passed the half century line. The "Overs" were for the match at the drop of the first suggestion and thereupon elected Mr. Hutchins as their leader, not because he was so far over the line, but because he seemed to have the natural instincts of a bowling scout and had fully demonstrated his leadership as captain of the "Hutchins Hustlers", famed for many weeks. The mantle of leading the "Unders" fell to the lot of Dr. Perry Winkler Young. Each player put in an equal spin which is to be known as the "banquet allotment". A series of 15 games was decided upon, the first three games being rolled on Wednesday evening, January 12. The "Unders" practically had this series cinched, but in the last game, after leading with more than 100 pins, the "Overs"

got themselves together, wiped out the lead and emerged victorious by 11 pins, a finish that stamped the "Overs" as game sportsmen.

So last night the spectators looked for a close contest. The "Overs" were minus the services of one of their stars, Vallee Harold, but that they are there at all stages was conclusively demonstrated when they picked up this handicap and went through like water in a sieve.

Anchor man George Wilhelm, was the bright and shining light for the "Overs". He secured high score 146, and not satisfied with that grabbed off the second high score, 137. Captain Hutchins shot in great shape, getting 128 and 133, while George Kricker, efficient ensnare by profession, and a dyed-in-the-wool bowler, did great, getting 125 and 130 in succession; too. Jim Kelley was good, but not as brilliant as for shows he shot well up to the 100 mark. The two Eds, Leach and Kelley, did the best work for the "Unders". Bill Gableman was quite good for Bill. Not another player on the roster of the "Unders" deserves passing notice. That old adage, "Youth must be served", evidently was written before duck pins were invented.

The scores:

Kricker	97	125	130	91	92
Kelcho	84	96	88	93	104
Blind	114	108	91	95	97

## He Ought "Now"

Home Run Baker is a spunky chap in addition to being a demon hitter. He says he will not play next year unless he is paid \$10,000 for being idle last season. Baker ought to be started in a "mellorancy" "keeping the file."

## RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from your pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear, cleanses the blood and is excellent for the kidneys as well.

## Pyorrhea—the disease nearly everybody has

No matter how sound your teeth may seem to be, no matter how you may scoff at the idea of your having this disease, it is a positive fact that the germ which causes it is working now in your teeth.

The appalling discovery of this fact—that the germ which causes pyorrhea is one which inhabits every human mouth—was made over a year ago. Since then dentists have been urging everyone to take special precautions in their daily toilet to prevent this disease from developing in its acute form of bleeding gums, tenderness in chewing and loose teeth.

To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the

public in the convenient form of Senorec Tooth Paste.

Senorec contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senorec also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesomely clean, cool and pleasant taste in the mouth.

Start the Senorec treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25-cent oz. tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senorec at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Senorec Remedies Co., 505 Union Central Bldg., Cincinnati, Ohio.

## SAGE TEA PUTS LIFE AND COLOR IN HAIR

Don't stay gray! Sage Tea and Sulphur drenches hair so naturally that nobody can tell.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 60 cent bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well-known druggist here, because it drenches the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all this without going, scalp itching and falling hair stops.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

### ACT QUICKLY

Delay Has Been Dangerous In Portsmouth

Do the right thing at the right time.

Act quickly in time of danger. In time of kidney danger Doan's Kidney Pills are most effective.

Plenty of Portsmouth evidence of their worth.

O. W. Metzger, painter 2233 Seventh St., Portsmouth, says:

"The first symptoms of kidney trouble in my case was backache. I was chopping wood one day when a stilt took me in the small of my back and I had to be helped into the house. The kidney secretions were scanty and burned in passage. I also noticed that they contained sediment like brick-dust. I treated with six physicians and used many medicines with no results. The first box of Doan's Kidney Pills helped me a great deal and by the time I had finished three boxes, I was cured. That cure has lasted for over five years."

## BEGGAR HIDES IN HOUSE

## AND THEN HE LOOTS IT

Taking advantage of a good opportunity a beggar displayed ingratitude and turned sneak thief at the home of J. C. Stewart, an N. & W. engineer, of 2117 Gallia street, ransacking the house from top to bottom Wednesday afternoon.

Fifteen dollars in money and a couple of Mr. Stewart's work shirts were stolen.

Mrs. Stewart was just preparing to leave home on a shopping tour down town when a poorly clad white man about forty years of age and wearing a black cloth over one eye, knocked at the kitchen door. He asked for an old discarded coat, saying he was in need of one. Mrs. Stewart went up stairs in search of a coat to give him and when she returned was surprised to find the man gone. One of the neighbors suggested that the fellow might be somewhere in the house, but Mrs. Stewart was disinclined to think so and locking the doors proceeded down town. When she returned she was surprised to find the house completely ransacked. Dresser drawers were pulled out and their contents strewn over the floors, trunks turned topsy-turvy and the whole interior of the home

disordered. Seven dollars was found missing from a book case down stairs and the balance of the money was taken from a dresser drawer upstairs.

It is supposed that while Mrs. Stewart was upstairs the stranger entered through the kitchen door and concealed himself somewhere in the house. The police were notified and Officer Charles Flowers was detailed to investigate.

## 16 Booths Wanted

The county board of elections has decided that sixteen more portable voting booths are needed for carrying on future elections in the city.

Members Chas. Schirrmann and William West, of the board, appeared at the city council meeting Wednesday night to ask for the necessary appropriation but either through oversight or for lack of invitation did not make their wants known. The election officials declare that it is a difficult matter nowadays to secure suitable vacant properties for the purpose of precinct voting places and cite as an example that for some time past it has been necessary to use a room of a private residence next to the Interstate transfer barn because no other place is available in that vicinity.

## ROBBED ONE MAN TWICE;

## OTHER POLICE COURT NEWS

That regular offenders will be shown no quarter by Mayor H. H. Kaps was again demonstrated in the case of Frank Craycraft in police court, Thursday morning.

Craycraft and Jake Hill, young brother of John Ivan and William Ike Hill, were arrested for holding up B. F. Haman at Third and Chillicothe streets, Wednesday evening. They, according to Haman's statement, took a five-dollar watch and gold case from his pocket but when he protested replaced it only to relieve him of the timepiece again and take to their heels.

Both young men pleaded not guilty but the mayor held against them and Craycraft was fined \$50 and costs and sentenced to 30 days in the Cincinnati workhouse, while Hill drew \$25 and costs and 30 days in the county jail. His brother, William Ike is at present serving sentence in the workhouse for wife-beating.

Threatened His Sister

Ben Goodman, who was charged with threatening to cut and wound his sister, Miss Dorothy Goodman, was also fined \$25 and costs and sentenced to 30 days in the county jail. Goodman, according to the evidence, never works and persists in visiting the home of a half-brother named Carter of Eighth street, and trying to run the place. He wanted the payments started at the there Wednesday and demanded

something to eat and it was then he and sister clashed.

Will Ferguson, colored, was fined \$10 and costs Wednesday evening for striking Leo Malavazos with a pool ball at the Busy Bee restaurant on Eleventh street. Half of the fine was remitted.

### Horse Trader

Has D. T.'s

Davis hails from London, O., and is thought to have been brooding over the death of his late friend, Liveryman Frank Gardiner. He became violent at his room Wednesday and showed little improvement, Thursday. Police officials may take him into Judge Dent's court and prefer a lunacy charge against him.

Tom Moore pleaded guilty to drunkenness and was let off with a \$5 suspended fine Thursday morning.

### Forgot Payments

Floyd Bowman was taken into custody Wednesday night for his failure to carry out the court's order and make payments towards repairing the damage he had done in breaking a \$40 window at Jas. Goodpastor's grocery lately. He was released Thursday morning upon assurances from the father, John W. Bowman, that he would have the payments started at the earliest possible time.

### Pittsburgh's Watershed Is Blamed For Floods

Cairo, Ill., Jan. 20.—That the prevention of floods in the watershed above Pittsburgh would solve the drainage problem in the Ohio and Mississippi river basins was the declaration of E. K. Morse, a Pittsburgh engineer, in an illustrated lecture last night to delegates attending the sixth annual meeting of the Drainage Congress here.

Mr. Morse showed what effect flood waters that go down to the Ohio river past Pittsburgh have upon the Mississippi river and declared that the solution offered by the Pittsburgh flood commission—the building of storage reservoirs—would, to a large extent, end flood damage in the Ohio and Mississippi basins, besides providing a supply of water in seasons of drought for navigation and sanitary purposes. With the aid of the data prepared

## "Youth Must Be Served" Knocked Into A Cocked Hat At Play House Last Night

Holding aloft their colors with military and patriotic simplicity, showing no more mercy than a band of ravenous wolves, the "Unders" all but annihilated the "Overs" in a five game duck pin series at the Play House alley, Wednesday night, winning the match by the wide margin of 224 pins and not allowing the "Unders" the consolation of taking a single game. In fact the rout was so complete that it is now a question whether or not it will be possible to garner the bunch together again, even in time for the tempting spread the winners are to enjoy at the expense of the losers.

A large bunch of royal rosters were out to see the fun and while the air was being surcharged with blistering sarcasm and out-riding ridicule, the "Overs" led by their captain, W. A. Hutchins, kept right on plugging along and shot carefully and accurately at all stages.

Perhaps it would be well to do a little explaining right here. Some time ago, Dr. Perry Winkler Young, conceived the brilliant idea of a contest between players under 50 years of age and those who had passed the half century line. The "Overs" were for the match at the drop of the first suggestion and thereupon elected Mr. Hutchins as their leader, not because he was so far over the line, but because he seemed to have the natural instincts of a bowling scout and had fully demonstrated his leadership as captain of the "Hutchins' Hustlers", famed for many weeks. The mantle of leading the "Unders", fell to the lot of Dr. Perry Winkler Young.

Each player put in an equal sum which is to be known as the "banquet allotment". A series of 15 games was decided upon, the first three games being rolled on Wednesday evening, January 12. The "Unders" practically had this series clinched, but in the last game, after leading with more than 100 pins, the "Overs"

got themselves together, wiped out the lead and emerged victorious by 11 pins, a finish that stamped the "Overs" as game sportsmen.

So last night the spectators looked for a close contest. The "Overs" were minus the services of one of their stars, Vallee Harold, but that they are there at all stages was conclusively demonstrated when they picked up this handicap and went through like water in a sieve.

Anchor man George Wilhelm, was the bright and shining light for the "Overs". He secured high score 146, and not satisfied with that grabbed off the second high score, 137. Captain Hutchins shot in great shape, getting 128 and 133, while George Kricker, efficient cashier by profession, and a dyed-in-the-wool bowler, did great, getting 125 and 130—in succession, too. Jim Kelley was good, but not as brilliant as for shows he shot well up to the 100 mark. The two Eds, Leach and Kelley, did the best work for the "Unders". Bill Gableman was quite good for Bill. Not another player on the roster of the "Unders" deserves passing notice. That old adage, "Youth must be served", evidently was written before duck pins were invented.

The scores:

Kricker	97	125	130	91	92
Kehoe	84	96	88	93	104

## RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking an Outlet Through Skin Pores.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus enabling them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.

## Pyorrhea—the disease nearly everybody has

No matter how sound your teeth may seem to be, no matter how you may scoff at the idea of your having this disease, it is a positive fact that the germ which causes it is working now in your teeth.

The appalling discovery of this fact—that the germ which causes pyorrhea is one which inhabits every human mouth—was made over a year ago. Since then dentists have been urging everyone to take special precautions in their daily toilet to prevent this disease from developing in its acute form of bleeding gums, tenderness in chewing and loose teeth.

To meet the need for such a daily treatment and to enable everyone to take the necessary precautions against this disease, a prominent dentist has put his own prescription before the public in the convenient form of Senorec Tooth Paste.

Senorec contains the best corrective and preventive for pyorrhea known to dental science. Used daily it will successfully protect your teeth from this disease. Senorec also contains the best harmless agent for keeping the teeth clean and white. It has a refreshing flavor and leaves a wholesome clean, cool and pleasant taste in the mouth.

Start the Senorec treatment tonight—full details in the folder wrapped around every tube. Symptoms described. A 25-cent tube is sufficient for six or eight weeks of the pyorrhea treatment. Get Senorec at your druggists today, or send 4c in stamps or coin for sample tube and folder. Address The Senorec Remedies Co., 505 Union Central Bldg., Cincinnati, Ohio.

## THE MEXICAN SITUATION

(From Dayton News)

The murder of a number of Americans by outlaws in Mexico, recently is a grave matter, of course; but inasmuch as the crime was not committed by an "army," or under the direction of any one claiming to hold all or a part of the territory, it is entirely different from other disturbances which have taken place down there. It must be abated; we can not allow citizens of this country to be murdered in Mexico. But our grievance in this instance is not the same as in other instances, as where Villa or Zapata, or any other revolutionist, committed the deed.

General Carranza is endeavoring to catch the culprits. He may be able to do so. If he does, and they are punished for the crime, we can have no further interest in the matter; that is, we can not make it an "international affair." But if the outlaws are not captured; if they are permitted to run at large; if they commit further crimes, we shall probably co-operate with Carranza in restoring order by running down the murderers. But we shall probably do so in co-operation with the Carranza government, and not endeavor to ourselves seize the government of Mexico.

The crime committed against the Americans was similar to one committed in this country several years ago in New Orleans against citizens of Italy. It is also on a par with the crimes committed upon several occasions against citizens of China, out in the western mountains. In each of these instances we disavow any intention to mistreat or discriminate against citizens of other countries; we assure the nations of which the dead are citizens that we will prosecute those who are accused of the crime, and we make every effort to catch and to convict the murderers. But we always fail in that.

The hysterical cry that this government ought to go to Mexico and take charge of affairs is pure demagoguery, or worse. Certainly it is not founded on the wisdom of the day. Generally it is hurled at President Wilson for political purposes—this denunciation of his Mexican policy, by people who would just as bitterly denounce him if he had intervened in Mexican affairs. We must remember always, in reading such denunciations, that a presidential election is pending, and that politics comes first with a lot of people and with a lot of newspapers.

With few exceptions, the people of this country do not want President Wilson to plunge us into war with Mexico or anybody else. Well-informed people know that it would have to be done at a frightful cost, that it is one thing to sit in a comfortable office and talk about intervention and quite another thing to dig down into the pockets and to pay for such intervention.

President Wilson has so far handled the Mexican situation satisfactorily to a majority of our people. Affairs down there are being straightened out pretty well, all things considered. We do not minimize the awfulness of this latest murder, nor do we believe that this country should wink at any such outlawry. But the president is mindful of his duty to the best advantage of the people of this country. The cheap, clap-trap demand that we send an army to Mexico and eat up all of the outlaws, blood, bones and body, is foolish, as well as cheap.

Just what judicious advertising will accomplish, and incidentally just what advertising in The Times means, was demonstrated this week by L. F. Lemon & Company, of the East End. This firm advertised in Monday evening's Times that it would be open until 7:30 o'clock Monday evening and among the bargains advertised were canvas gloves, ordinarily sold at 10 cents a pair at the rate of two pairs for five cents, not more than five pairs to a customer, linen collars generally sold at 15 cents each for 3 cents each or 35 cents a dozen. The Times went to press at the usual hour, 4 o'clock and Lemon & Company report that before closing time they had sold 300 pair of canvas gloves and 500 linen collars. That is a remarkable showing. It illustrates that people read advertisements and that The Times reaches the people who buy.

Portsmouth friends of Harry McKenzie, former Waverly editor, will be pleased to learn of his appointment to a lucrative office by Secretary of State C. Q. Hildbrant. Mr. McKenzie is a man of ability and he will undoubtedly make a good record in office.

Somebody has suggested that one reason for those recent rampages of the Ohio is that the Lord grew tired of George White's delay on that towpath job and sent the waters to help him finish off the surface.

## ABOUT TIME FOR A SHIFT

A well known and progressive farmer of the county, commenting upon the recent editorial in The Times in regard to the home extension work being carried on by Supt. W. L. Ritchey, of the county schools, sends in this communication, that will be found of interest:

January 16, 1916.

Editor Times—  
Commenting on your article on rural school work a few days ago, Mr. E. J. Schmeichel, of Winter, Wisconsin, gave notice that the agricultural department of the school, will test milk and cream free of charge for the farmers of that vicinity and hopes that eventually they may be able to form a testing club or cow testing association. Rural schools are finding it desirable, in increasing numbers, to take up this class of work and it is only regretted that more of them have not yet seen the value of so doing.

The American voter will unlose his purse strings when he is convinced that real service will be rendered. This conviction may not be established in one year, sometimes not in two years, but if real service is given it will be eventually accomplished.

Let the farmer's cow nose her way into the school room and the farmer will follow after her. Connect up the farm and the rural school in a visible and direct way, and both will profit by the acquaintanceship.

A SUBSCRIBER.

P. S. Have every rural school in the county buy a Babcock milk tester for testing milk and cream. The testers cost about \$4.00 and the results will be found of great value.

Ed Jones emerged from his long silence Monday and declared himself not a candidate for governor but averred that this honor should go to our good young governor and any one who said or thought otherwise was a ninny and a numbskull. We don't suppose however that upon his return home, following this momentous interview, Ed's admiring Jackson friends got out the village band and Undertaker Al Wood's snow white horses as they did at a certain other famous home-coming.

At the very latest traction line cars will be running from Portsmouth to Ironton by July, and as preliminaries always consume considerable time, we suggest that our city council should at once begin the steps necessary to annex Ironton to the Peerless. Then we can have a big Fourth of July celebration to formally complete annexation ceremonies.

At tobacco sales at Manchester last week one basket belonging to R. H. Ellison, of Manchester, was sold for 60 cents a pound, the highest price ever paid for Adams county tobacco. There ought to be more 60 cent tobacco in Adams and Scioto counties.

## THE MARION NICHOLS CASE

Demon Rum is responsible for a good bit of evil in the world, there's no question about that, but once in awhile he is blamed for something for which he is not entirely responsible. For instance, we note that Marion Nichols made a plea to a Chillicothe judge that if it had not been for booze he would not have been guilty of forgery, and thereby he got into the good graces of the tender-hearted judge and received a light sentence. Now Marion Nichols may be a booze fighter. But he is more than that. He is a worthless, no-account, mean spirited thief. He has been one so long as the oldest inhabitant in this section can remember. When at large, there has been hardly a week for many years, that he has not figured in some unsavory scrape. We believe he would have been a thief if he had never heard of booze because it was in him. He just naturally can't help himself. He is one of those damaged units who are mentally and morally irresponsible and the only place for him is behind the walls of the penitentiary. While he is there society knows that he will be good, but the moment he regains his freedom he will be up to his old tricks. The next time he gets into trouble we hope that the court officials will look up his record before they accept some specious excuse for lightening his sentence.

## NEW-YORK-DAY-BY-DAY.

O. O. MCINTYRE.

New York, Jan. 20.—The Rev. Dr. Charles H. Parkhurst is in the limelight again as the result of his connection with a candy concern that is involved in some litigation where it is alleged that the stockholders hold the bag. Dr. Parkhurst seems to be able to hold his own against all comers and somehow he usually comes out with flying colors.

He is a fighter of the old school when his reputation is attacked and he hits straight from the shoulder. Probably no minister in New York has the following that he has. It is said that Mr. Hearst pays him a salary in the five figures for writing two or three signed editorials each week.

Dr. Parkhurst lives at the Ansonia Hotel in the winter and in the summer he goes to his cottage at Lake Placid. When the recent story broke a group of reporters

hot-footed it to his hotel. He met them, talked to them a while and when they left one said: "You might say it was a case of interviewers being interviewed. He got more out of us than we did him. He asked me so many questions I was afraid he was going to uncover my past life."

Nat Goodwin has deserted boxing for wrestling. He is in nightly attendance at the wrestling tournament at the Manhattan theatre. Nat is quite curious to know the identity of the "Masked Marvel." He has been called everything from Harry Thaw to Charlie Ross and thus far has escaped discovery.

It may be a cheap press agent stunt. Perhaps it is, but the fact remains that the "Masked Marvel" is the best wrestler in the United States. Some have said it was Francis X. Bushman, the cinema Apollo, and the other night at 2 a. m. some one called up Bushman in his apartment.

"Take 'em off Bush, we know you," said the voice and then rang off. It is apparent that Bushman is not adverse to having the public believe it is none other than he—but the real dupe seems to point to Mort Henderson.

The New York theatre box office men are notoriously the surliest and crabbiest lot of salesmen who are supposed to meet the public. They are overbearing—sometimes positively insulting—not only to men but women.

A gentleman from the rural districts walked into a Broadway lobby the other afternoon. He knew nothing about the attraction and in his simple-minded manner said: "Any wild animals in this opera?"

"Do you want to see wild animals?" snapped the ticket man.

"Well—er—yes that is I had heard—"

The treasurer called to the doorman: "Oh Mike run inside and tell them to use the wild animals today. This hick wants to see them."

The manager of the theatre happened to be standing in the office. He rushed up, grabbed the ticket seller by the necktie, pulled his head out the window and gave the face a resounding smack. Then he fired him.

He turned to the countryman, personally escorted him to a private box and sat with him through the entire performance. The manager at one time came to New York a "hick" himself.

Anna Pavlova is dancing again in New York. There seems to be a revival pending of the Russian dances that were so popular a few years back when Mordkin, Genee, Louis H. Chalif, Maud Allen and Isador Duncan were be-

ing greeted by cheers nightly.

The fact that they got out of the limelight temporarily was due to their refusal to sanction the fox-trotting craze. They felt that it would die out in a few years and the real artistic dancing would reign supreme. They seem to have been correct in their surmises.

There may be cold comfort in the fact that at a Broadway vaudeville house this week Alice His is representing the Spirit of the North Pole.

## To My Automobile

Oh, touring car, to you I sing,  
You surely are a wondrous thing.  
Before you start I grasp your crank  
And give it such a violent yank  
That it flies back and deftly wrenches  
The region of my solar plexus.

Then I get mad and yank some more  
And all I get is just a snore.  
A sort of rumbling, puffing sound  
That seems to come out of the ground.

Then you give one discordant snort.  
One single snort and then stop short.  
And then I have to crank again  
Till every muscle is in pain.

And in an hour, or thereabout,  
I find the batteries are out.  
I got some new ones, put 'em in,  
And with glad, contented grin,  
I hear your engine start to throb  
And off we go, yes, sree, Bob.

I brag about you to my friends,  
But long before our journey ends,  
They're next to both of us, all right.  
The way you act is sure a fright.

When I'm alone you burn the road,  
But not when I have got a load.  
Your tires give out, you pant and wheeze,  
And run so slow you make no breeze.

You snarl on by fits and starts,  
It seems as though each of your parts  
Has got an ailment of its own.  
My friends converse in whispered tone.

When finally you give out flat,  
Ten miles from home as quick as flat,  
Your engine gasps and then runs down.  
My friends and I hike back to town.

Oh, touring car, to you I sing,  
Oh, vicious and ungrateful thing.

# EARLY ACTION ON REPAIRS TO RESERVOIR CITY COVERED AND FLOOD WALL EXTENSION PROMISED WITH SLEET

## Will Take Up Water Works Matter In 30 Days, Mayor Says

Early action upon two important public necessities, the restoration to service of the city reservoir and the extension of the flood wall were promised by administration officials at Wednesday night's meeting of city council.

Mayor H. H. Kaps after announcing receipt of a telegram from Engineer J. F. Witmer stating that he would come to Portsmouth January 24 to take up the matter of repairs to the reservoir and everything pertaining to the water works generally, said: "We expect to do something within the next thirty days for the whole situation."

Earlier in the meeting Director Ralph Calvert of the public service department, called attention to the flood wall project. He said that was a matter upon which citizens of Portsmouth expected progress. He said the board of control had this well in mind and proposed to go over the route in the near future or before the engineer submitted revised plans and estimates. He extended a welcome to councilmen or citizens, who might feel interested, to go over the route with the board. Due notice of the time would be given, he added.

### Mr. Cramer Was Only Absentee

All members of the new council were present save William M. Cramer, who was absent because of the death of his mother.

Mr. Johnson called attention to a rather peculiar situation, namely that while three constables had been elected at the last election Squire John W. Byron was now without the services of such an officer. Constable William Wolfe, he said, was in bad health and Constable John Neu was preparing to leave the city, though he had not yet resigned. He moved to refer the matter to the law and claims committee to take up with Mr. Neu and secure his resignation. Mr. Wilson protested that council really had nothing to do with him and contended it was for Squire Byron to take up with Mr. Neu. Mr. Johnson then asked City Solicitor Skelton's opinion. That official thought it perfectly legitimate to refer the matter to the law and claims committee but agreed with Mr. Wilson that council had no power in the matter until the resignation had been presented and he thought, too, that Squire Byron should take up the matter with the constable. The motion to refer carried.

### Two Resignations Were Announced

Mayor Kaps announced the resignations of Jasper Newman and Henry Scott as members of the civil service commission on January 10 and stated that he had also removed John Wurster as a member of the commission allegedly for malfeasance in office. He also announced the resignation of Capt. James W. Smith as a member of the board of health and his appointment of Capt. James Little to succeed the former. Solicitor Skelton said the law required board of health appointments to be confirmed by council and this was accordingly done. The mayor also announced the appointment of E. M. Funk as a member of the civil service commission for two years, George W. Sheppard for four years and John F. Eckhart for six years.

City Auditor L. A. Zucker read the monthly financial statement showing a net balance in the city treasury December 31, 1915 of \$129,759.69 with orders outstanding amounting to \$250.50.

Service Director Calvert submitted City Engineer Harper's estimate for the Alspough sanitary sewer in the alley east of Sinton street between Front and Second streets. It will give drainage to 24 properties and the estimated cost is \$455.50. Upon motion of Mr. Roush the solicitor was directed to bring in the necessary legislation.

### Bill Presented By Mr. Clinkenbeard

Director E. K. S. Clinkenbeard, of the public safety department, presented as a heritage from the previous administration a bill from R. S. Pritchard for repairs to the city service wagon after it had been badly damaged in a collision with a street car. He said the bill had been referred to the street railway company but the company had refused to pay it. It had since been "pigeon-holed" according to Mr. Pritchard, who, he said, was the innocent holder of an account on which he was unable to realize. The matter was referred to the law and claims committee and solicitor.

Mr. Clinkenbeard also read Dr. Jos. Gill's report on "Billy," the fire chief's driving horse, showing the animal to be unfit for further

service. This left the chief in a bad predicament, said the director, and he thought at least temporary relief should be given. He desired some instruction or authority in the matter.

### Mr. Wilson Did Not Agree With "Klink"

Mr. Wilson arose to a point of order, saying he did not agree with the director that it was within the province of council to make suggestions to him as to how he should conduct affairs of his department. It was for him to study out such things and bring in recommendations to council, which would be willing to give the necessary relief. A whispered few minutes' consultation between the director and Mayor Kaps followed and Mr. Clinkenbeard then acting upon the suggestion of Mr. Wilson asked council for an appropriation of \$250 for the purchase of a horse. Upon Mr. Wilson's motion the matter was referred to the fire and police committee.

### Presents Semi Annual Appropriation Ordinance

Chairman Wilson, of the finance committee, in presenting the semi-annual appropriating ordinance to provide funds for defraying the city expenses the first six months of the year, explained that compensation had been provided for the new civil service commissioners. He said the solicitor had informed the committee that the law required that they be compensated. The committee thought that inasmuch as it was up to council to name the amount, they felt that \$5 per month would be ample compensation and had so fixed it. Under a suspension of the rules, moved by Mr. Wilson and seconded by Mr. Johnson the ordinance was passed.
